# Welcome to Think Teach!

A message from our co-founder, Teacher Algene:

The PSLE is fast upon us. As parents ourselves, we understand and can feel your jitters. With a short runway, you want to make sure you choose the right tuition centre, and you want to make sure your child makes the best use of his or her time. Be assured, in Think Teach, you have come to the right place.

At the P5 and P6 level, we are laser-focussed on exam excellence and PSLE success. All our P5 and P6 Programmes are designed to be unabashedly exam-centric. Yes, your child will have to go through the grind of intensive practices. The difference, however, is that your child will be armed with our signature “Think-Smart-Teach-Smart” techniques that will help him or her study smarter and score higher. We also have periodic assessments to allow us to track the progress of your child as well as provide you with useful feedback. To us, we believe in parent-partnerships where we work with parents to help their children reach their academic potential.

We open our doors to all students, regardless of ability. Our job is to make sure students master the use of our techniques and see visible difference in their results and confidence.

We call ourselves the PSLE Powerhouse; and we plan to live up to it.

**85% Distinction Rate**

**2-3 ALs Improvement**

**Thousands Impacted**

**Countless Glowing Reviews**

# P5 & P6 English

The new PSLE English syllabus has taken effect! It places an almost equal emphasis on Paper 2, Oral and Composition. We have designed our P5 & P6 English programmes with the changes in mind. For optimum preparation, we recommend that your child join us for both.

Teacher Evette, HOD

## Full English Programme (FEP)

Our FEP covers every single component of the English subject except for Composition & Listening Comprehension. While Oral and Situational Writing are covered, the main emphasis is on Paper 2.

In our FEP, we show students how to break questions down into different question types and teach them our easy-to-remember tricks and techniques to approach virtually every single examinable question type.

## Master Writing & Oral Class (MWOC)

Our MWOC is open to P5 and P6 students. It shines the spotlight on Continuous Writing and Oral. For Continuous Writing, we teach students our famed Storyline Approach™ which has helped students consistently elevate their writing and score big on language and content. For Oral, we teach students our signature AROSE+PEEL structure which helps students organise their ideas and speak with confidence.

# P5 & P6 Mathematics

Our Mathematics classes are all about breaking questions down into different question types and showing students how our Shorter-Better-Faster Approach™ is probably the most effective and efficient way to tackling these questions.

We have taken great pains in devising easy-to-remember formulas for every question type, and yes, that includes the very much feared 'IQ-type' questions.

Using a systematic and methodical approach, PSLE Mathematics will no longer be daunting. Problem sums need no longer be feared. Our students learn that all problem sums ultimately fit a certain question type. When faced with a tricky question, all they have to do is identify the correct question type and recall and apply our Shorter-Better-Faster Approach™ to get that question right.

Teacher Fiona, HOD

# P5 & P6 Science

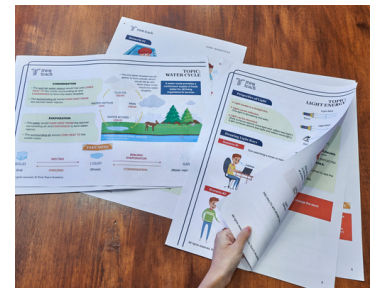

Our Science classes focus on complete mastery of content. With exam questions now testing cross-topical content knowledge, the aim is for students to not just master concepts in one given topic, but also understand how different topics are linked together.

Teacher Gen, HOD

Our Science classes are highly sought-after because of the following reasons:

- (1) Our Winning-Answering-Templates™ provides students with an answering template for virtually every topic so that they can score maximum marks for Booklet B Application Questions.
- (2) Our comprehensive science notes that explain concepts in detail and show how they will be tested in exams.

# Primary 5 Class Schedule

## Bukit Timah Plaza

Day	Time	Subject / Teacher
Monday	4:00pm - 6:00pm	Science (T. Gen)
	6:15pm - 8:15pm	Mathematics (T. Edwin)
Wednesday	4:00pm - 6:00pm	Science (T. Dawn)
	6:15pm - 8:15pm	English Writing & Oral (T. Sharon)
Thursday	4:00pm - 6:00pm	English (FEP) (T. Sharon)
Friday	6:15pm - 8:15pm	English Writing & Oral (T. Sharon)
Saturday	11:15am - 1:15pm	English (FEP) (T. Sharon)
