

EMPOWERING THINKERS OF TOMORROW

2024 SECONDARY 1 PROGRAMME

ENTER A STUDENT, DEPART A THINKER.

Think Teach Academy is a leading education academy that embodies the core philosophy of teaching and thinking smart.

Our students are empowered to learn effectively by asking the right questions, exploring different methodologies, and challenging the norms. With a revolutionary curriculum that reflects our philosophy and a stellar team of teachers who champion it, we are excited to nurture the next batch of thinkers and compose yet more stories of success.

If your child is entering Secondary 1 in 2024, and you are looking for a premium education academy to guide them through the complexities of the new Subject Based Banding system, you've come to the right place.

FOR SECONDARY 1

OUR PROGRAMMES

ENGLISH

Our English programme covers every component of the English subject at the Secondary level.

Under the new Full Subject Based-Banding system, there will be a widening variety of question types.

Our seasoned tutors will show students how to break each question down into digestible steps and teach them our easy-to-remember tips and techniques to approach different questions.

Excelling in English at a Secondary level involves not just a wide vocabulary and good grammar – it is also crucial that students learn how to write clear and concise arguments. Our writing & comprehension focused classes will equip your child with the strongest foundation in English and propel them towards success.

MATHEMATICS

Our Mathematics class is systematic – we classify questions based on their archetypes and break the questions down to help students find the most efficient ways to tackle each question.

We have taken great pains in devising easy-to-remember formulas for every question type that can possibly be tested.

Using a systematic and strategic approach, Secondary Mathematics will no longer be daunting. Our students learn that all mathematics questions ultimately fit a certain question type. When faced with challenging problems, all they have to do is identify the question type correctly and apply our proven approach to getting that question right.

SCIENCE

Our Science class focuses on the complete mastery of content. With exam questions now testing cross-topical content knowledge, the aim is for students to not just master concepts in one given topic but also understand how different topics are linked together.

Our Science classes are highly popular for two reasons:

- (1) Our concise and comprehensive in-house science notes help students to sieve out test-centric content.
- (2) Our results-proven templated answering structures help students score maximum marks for application questions.

AY 2024

CLASS TIMETABLES

SECONDARY 1

ONLINE

Day	Time Slot	Subject
Tuesday	6:15pm-8:15pm	G3 Science
Thursday	6:15pm-8:15pm	G3 Mathematics

School Holidays

Centre Closure

* Public Holidays

ATTENDANCE & MAKE-UP LESSONS

Make-up lessons must be taken within the same week as the missed lessons.

If a student is absent with a valid reason (as determined solely by the Academy), fees paid WILL NOT be refunded but that student can attend a make-up session arranged by the Academy in the same week he/she was absent at either branch or a make-up online class. In the event the student is unable to attend that make-up session, that student will be provided with the lesson recording for that week's class, and worksheets that were covered during the class he/she had missed.

FEES

Level	Price per 4 Weekly Classes/Subject
Secondary 1/2	Classroom: \$400
	Online: \$350

DISCOUNT STRUCTURE:

We are pleased to inform you that for Academic Year 2024, we will extend a discount of:

5% for 2 subjects

10% for 3 subjects

This discount will apply automatically to fees for weekly lessons with us in Academic Year 2024 and is not applicable in conjunction with any other discounts or promotions.

IMPORTANT NOTES

REGISTRATION FEES:

There will be a one-off \$60 registration fee for every student who enrolls with us.

HIATUS FEE:

A one-time payment of \$40 hiatus fee can be applied to pause lessons whilst reserving the seat in the class for your child. If the reserved seat is the last seat in the class, you will be notified and given the option to resume lessons or risk losing the seat to a new student.

DEPOSIT:

There will be a one month refundable deposit that will be used for the student's last 4 lessons with us in the event of student graduation or withdrawal.

Any outstanding balance will be refunded by the student's last lesson with us.

PAYMENT

Each block comprises 4 - 6 lessons. For every subject a student is enrolled in, the Academy collects term payment in fixed groups of 4-6 lessons.

Fees are payable at the beginning of every block.

Payment must be made before the student is eligible to attend the course for that group. Rates may be pro-rated where necessary and as determined solely by the Academy.
